Java & DSA
JavaScript
HTML5 / CSS3
SQL
Python
Low Level Design (LLD)
React & Node.js
MongoDB & Express

LANGUAGES

English — Fluent
Hindi — Native
German — Conversational
Spanish — Conversational

EDUCATION

M.Sc. Computer Science
Scaler Neovarsity | Woolf Univ.
GPA: 3.7/4.0 (90%)
Expected: January 2027

ACHIEVEMENTS

Top 1% Performer — Scaler Full Stack Specialization

PROFESSIONAL SUMMARY

M.Sc. Computer Science student at Scaler Neovarsity (GPA 3.7/4.0 · 90%), with strong foundations in Java, Data Structures & Algorithms, SQL, Python, and modern web technologies. Actively building scalable software with a focus on Low Level Design (LLD), system architecture, and full-stack development. Driven by a passion for clean code, problem-solving, and building real-world products.

PROJECTS

CineTrack — IMDb Clone *React · Tailwind · TMDB API · Gemini AI*

React-based movie tracking app with a watchlist, genre filters, rating sort, search, and AI-powered movie recommendations using the Gemini API.

cinemafans.vercel.app

BookMyShow — Movie Ticket Booking *React · Node.js · Express · MongoDB · Razorpay*

Full-stack MERN movie ticket booking platform with role-based access (User, Partner, Admin), live seat selection, and Razorpay payment integration with theatre/show management.

book-my-show-seven-lyart.vercel.app

CALC-X9 Industrial Calculator *HTML5 · CSS3 · JavaScript · State Machine Logic*

High-precision industrial calculator featuring state-machine architecture, a neon metallic UI, and advanced mathematical operations. Fully deployed as an interactive web app.

aryanthakurat366-max.github.io/.../calculator.html

Weather App *HTML5 · CSS3 · JavaScript · WeatherAPI*

Live weather app with real-time data using WeatherAPI — search any city and see temperature, humidity, and wind speed, with saved search history.

aryanthakurat366-max.github.io/.../weather-app.html

Currency Converter Pro *JavaScript · Finance API · UI/UX*

Real-time currency conversion tool with live exchange-rate API integration, a premium gold-dark aesthetic, multi-currency support, and smooth responsive design.

aryanthakurat366-max.github.io/.../currency-convertor.html

The Legends Garage *HTML5 · CSS3 · Responsive Design*

Immersive showcase of iconic automobiles and motorcycles with interactive galleries, rich animations, and a fully responsive layout — demonstrating strong front-end storytelling.
